

# CambiTHP B2

The B2 is our smallest CambiTHP model, suitable for medium-sized wastewater treatment plants. The B2 is built and delivered as a complete unit on one skid, with up to 4 reactors.

All B2 plants are fully assembled and tested in our workshop, to minimise time and work for installation and start-up on site. This makes the B2 a plug-and-play system.

CambiTHP B2: Medina - Liverpool, OH, USA

## Data

- Reactor size:** 2 m<sup>3</sup>
- Typical footprint:** 12 m x 2.5 m
- Typical height:** 4 m
- Suitable for:** 50 000 - 250 000 p.e.

Model	B2-1	B2-2	B2-3	B2-4
Number of reactors	1	2	3	4
Peak capacity (tDS/day at 16.5% DS)	5.5	11	16.5	22
Design capacity (tDS/year)	up to 2 000	2 000 - 3 900	3 900 - 5 900	5 900 - 7 800
