

# CambiTHP B4

The B4 model is suitable for medium to large sized wastewater treatment plants.

The B4 is built and delivered as a packaged unit, pre-assembled and tested in our workshop. This reduces the time and work needed for installation and start-up on site.

Several trains can be installed in parallel, for increased capacity or redundancy

CambiTHP B4: Stoke-on-Trent, Strongford, UK

## Data

<b>Reactor size:</b>	5.2 m <sup>3</sup>
<b>Typical footprint:</b>	8 m x 10 m
<b>Typical height:</b>	7.5 m
<b>Suitable for:</b>	200 000 - 850 000 p.e.

Model	B4-2	B4-3	B4-4
Number of reactors	2	3	4
Peak capacity (tDS/day at 16.5% DS)	34	51	68
Design capacity (tDS/year)	5 600 – 12 000	12 000 – 18 000	18 000 - 24 000
